

COVID-19: Vaccine Info

The US Government Centers for Disease Control and Prevention (CDC) has a wide range of [information about the vaccines](#) and their benefits. You can also learn about different vaccines.

Check out [vaccine information](#) from the Illinois Department of Public Health.

From the World Health Organization, [How Do Vaccines Work?](#)

COVID-19 vaccines now available use messenger RNA, mRNA, to generate an immune response; this is different than other vaccines. [Read more here.](#) Read more information on other vaccines currently in use.

A video from NOVA, [Vaccines—Calling the Shots | Immunity & Vaccines](#). Background reading and an activity, too.

[How Do Vaccines Work?](#) This video resource generally describes different types of vaccines and how they work, not including the COVID-19 mRNA vaccine.

Video from It's Okay To Be Smart: [Inside the Lab That Invented the COVID-19 Vaccine.](#)
